

Gentlemen: In the matter of NAB's petition 04-160 that would restrict XM Satellite Radio's ability to provide XM Instant Traffic & Weather, please know that we strongly object to this petition, and, as "paying" subscribers to XM Satellite Radio, we are alarmed at the possibility that our service may be compromised.

Please know that I drive between my home in Tucson and Portland fairly frequently, and I do business in the Bay Area and in the Los Angeles area. I use XM Satellite Traffic/Weather for up to date information to assist in getting around the "rough" spots.
Please keep our services in tact.
